Assessment completed on 24 November 2026

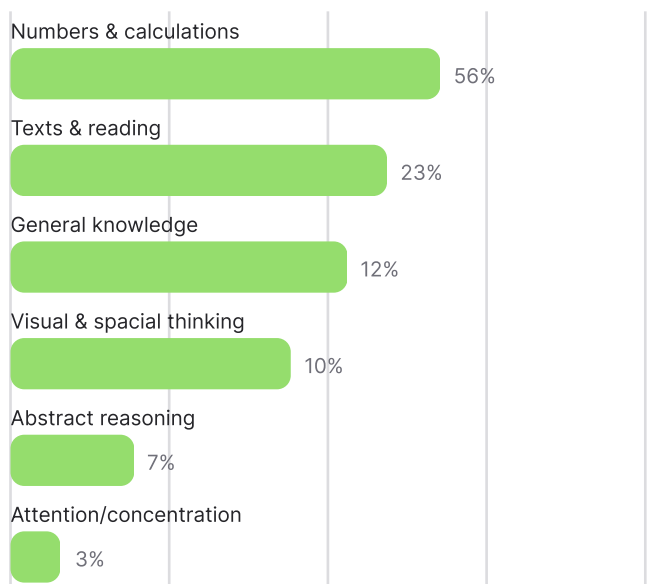

Career direction

You're a natural Entrepreneur (56%) – built for innovation and calculated risk-taking. Your Analyst thinking (23%) adds strategic depth, while your Administrator skills (12%) bring structure to bold ideas. Target roles in business development, startups, or strategic growth where you can build, solve problems, and lead execution.

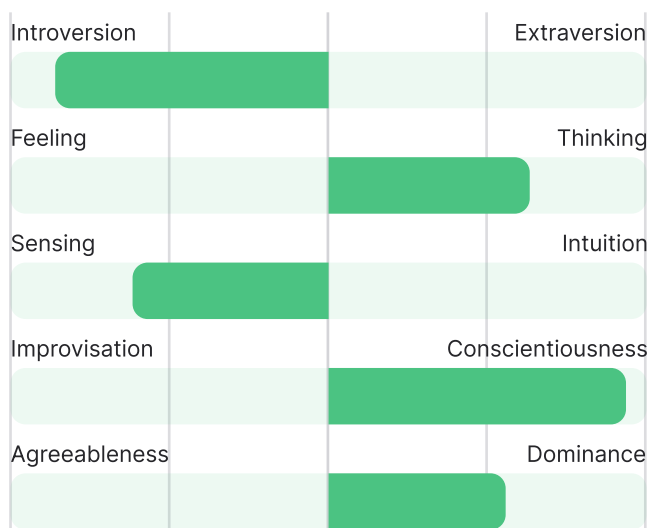

Strengths

You're strongest with numbers & calculations (56%) and text analysis (23%). Combined with your Entrepreneur mindset, target financial planning, business analysis, consulting, or strategic roles where data meets decision-making.

Personality

You're logical, disciplined, and data-focused – making decisions through analysis, not emotion. Combined with your Entrepreneur drive and numerical skills, you're ideal for financial planning, strategy consulting, or business analysis where independent thinking and execution matter most.

Roles you'd excel at

The assessment has three sections and takes approximately 60 minutes. Please make sure you have enough time to do it in one go.
